JOHN LEMUEL G. HAPA

PERSONAL SUMMARY

I am a computer programmer with a strong communications background. It is my passion, It is what I love doing for work or hobby purposes. I accept all the challenges ahead to further my career and personal growth.

AREAS OF EXPERTISE

- Develops web-based systems and is experienced using ReactJS(a bit of NextJs), VueJS, Jquery, a bit of Typescript, Bootstrap for frontend and Laravel, NodeJS(ExpressJs and NestJs) for backend and also used CMS like Wordpress and Drupal.
- Develops mobile apps using Flutter framework/Dart programming language.
- Utilizes HTML, CSS and Javascript for frontend development.
- Used Mysql, MongoDB and Redis for database management.
- Utilizes Git, GitLab, GitHub, Bitbucket, Jira, Trello, and Github boards for project management, version control and repositories of projects.
- Used MacOS, Linux and Windows as OS for web or mobile development.
- Used mostly PHPUnit and has experience using Selenium for unit and feature testing.
- Also has a knowledge in C#, Java, C and Python.

OTHER SKILLS

- Highly critical thinker with effective researching skills.
- Motivated to learn new programming skills.
- Strong analytical skills.
- Competent and takes initiatives.
- Can work under minimum supervision.
- Flexible team player.

PROFESSIONAL EXPERIENCE

Bicol University (Legazpi, Albay, Philippines) — *University Researcher 2*

July 2022 – June 2024

- Designs and develops an application with integration of the social science concepts.
- Works across full stack; creates and maintains cross-platform applications for Android, iOS, and Windows.
- Documents mobile apps, scripts developments and enhancements.
- Prepares and executes test cases and test plans.
- Collaborates with the development team in an agile environment with coding, troubleshooting, testing, and deployment of both web and mobile applications.
- Performs other related tasks that may be assigned from time to time.

Lindytech Inc (Makati, Metro Manila, Philippines) — *Full Stack Developer*

March 2022 – July 2022

- Participate and collaborate with other developers in designing the overall architecture of the product which includes Backend API Architecture.
- Frontend structure and integration.
- Work with the product owner and stakeholders to discuss and flesh out the product roadmap.
- Perform frontend and backend/database programming for key projects.
- Identifies user and system requirements.
- Integrates software components and third party programs.
- Design, develop and unit test applications in accordance with the established standards.
- Participate in scrum activities.

Coreproc Inc (Unit 12G, Fort Palm Spring, 30th St. cor. 1st Ave., Bonifacio Global City, Taguig, Philippines) — *Research and Development Engineer*

October 2018 – March 2022

- Develop backend and frontend websites, web tools for different projects for different clients.
- Maintain several websites and web tools.
- Plan and analyze project requirements needed for the development of assigned projects or tasks.
- Support QA team in resolving urgent and minor issues by debugging and troubleshooting it.
- Collaborate with the UI/UX team in developing websites and web tools.
- Collaborate with mobile app developers in designing restful api that will be used in mobile apps.
- Helps other developers in their tasks if needed.

Commission on Higher Education Regional Office V (Legazpi, Albay, Philippines) — *Project Technical Staff 1*

August 2017 – April 2018

- Leads the development and maintenance of the project called CHED Bicol Information System.
- Leads the planning and analyzing project requirements needed for the development.
- Consolidate all the data that was given by every higher education school in the Bicol region.
- Help design office networks.

Department of Social Welfare and Development Regional Office V (Legazpi, Albay, Philippines) — *Intern*

March 2017 – May 2017

- Leads the development of an Assistance System for the MIS Unit.
- Leads the planning and analyzing project requirements needed for the development.
- Troubleshoot pc, laptops, printers and other devices all around the offices.
- Help organize the data encoders.

EDUCATION

Software Development Specialization Program, Department of Information and Communication Technology — *Scholar | Top 3*

April 2018 - October 2018 (Sta. Rosa, Laguna, Philippines)

- A 120-day coding bootcamp. Learn about Web Development, Mobile Development, Game Development, Software Testing/Quality Assurance and Project Management.

Bicol University, College of Science — *BS Computer Science*

2013 - 2017 (Rizal Street 4500 Legazpi, Albay, Philippines)

AFFILIATIONS

Academic Consortium of Computer Science Students

June 2015 - May 2017 (Bicol University)

Computer Society

June 2013 - March 2015 (Bicol University)

SOFTWARE DEVELOPMENT RELATED TRAININGS

- Effective Communication for Professionals
- Fundamentals of Computing
- Java Programming 1
- Programming Logic
- Mathematics and Programming
- Java Programming 2
- Introduction to Web Development
- Java EE: Enterprise / J2EE
- Introduction to Database Programming
- Network Programming
- Web Development in JavaScript with Node.js
- Node.js Development, Level 2
- Developing with C# and Microsoft .NET framework
- Android Application Development
- Mobile Game Development for Multiple Platform
- Project Management
- Software Product Design
- Software Application Testing
- Automated Quality Assurance Testing

ACHIEVEMENTS

- DICT Software Development Specialization Program Top 3 Trainee (April – October 2018)
- Bicol University, College of Science Certificate of Recognition (March 2017)
- Champion, I Know IT workshop competition "System and Network Administration Category" (November 2016)
- 8th Placer, Bicol University Computer Programming Competition (July 2016)
- 4th Placer, Bicol University Computer Programming Competition (February 2015)
